

A new wave in Civil and Marine Consultancy.

We offer a unique service providing high quality and cost-effective solutions and advice for civil and marine infrastructure owners and service providers. We understand the unique challenges associated with Marine and Civil infrastructure and enable our Clients to navigate all stages of projects from concept to asset life extension.

We specialise in delivering bespoke solutions for projects in live ports, exposed coastal environments and urban waterways. Our services are delivered in accordance with internationally accredited standards for sustainability, quality, environmental and safety while also calling on worldwide industry experts to deliver our Clients the best possible service.

We are continuing to grow our team and are looking for the right people who have the passion and drive to add value and innovation to our Client's projects across the world. Join us in the new wave of Civil and Marine consultancy.

What's on Offer?

- It is a very exciting time in the company with a very impressive project portfolio on our books, even at this early stage.
 - We create the environment to allow our teams ability to shine. We promote innovation and inventive thinking, so you have the support, means and space to deliver clever solutions for our Clients unique projects.
 - You will receive a generous salary relative to your experience and flexibility in working hours and locations to suit your needs.
 - The team atmosphere is one that is positive and encouraging with staff retention being paramount to this company's success.
 - CPD events and initiatives are central to the company ethos.
 - Unique mentoring from industry leaders and assistance towards Chartership and Fellowship in Engineers Ireland.
 - Offers will only be made to the right candidate who is the right fit for the team.
- We are in no hurry to grow the team in the wrong direction.
